BENEFIT TO RAISE FUNDS FOR A MUCH NEEDED LIFT CHAIR & BATHROOM REMODEL

Jonah is a 13

year old boy who was born with multiple health issues. He has had heart, hip, urology, hernia surgery, numerous tests, and illnesses. He is developmentally delayed and has had seizures since he was 2 years old. Within the last year he was diagnosed with Lennox Gastaut Syndrome, a severe form of epilepsy that is difficult to control. His seizures and low muscle tone have caused him to rely on a wheelchair and requires help with just about everything. Despite all he has had to go through, he is still such a sweet and happy boy.
